

HANDBAG

with ornament to new coat

One of the other custom handbags came from a colleague of mine. She had a custom fall/winter coat made by her designer. However, she had no purse to go with this coat.

I got a little leftover material from making the coat to use in making the handbag. I sent the customer several patterns and color combinations to choose from. Furthermore, according to the preference of the future owner, I chose a round handle.

I chose the lining with a print and sewed six pockets on it.

Dimensions: approx. 40 x 30 cm

Depth: approx. 13 cm

Material inventory

Looped areas and edges: dark green printed cotton fabric, the rest of the fleece from the coat in blue gray

Locking medium: solid cotton yarn in black

Lining: same fabric used for looping

Handle: dark brown, wooden, circular

Bottom: reinforced

TIPS FOR YOU

If you are going to make a handbag for a certain outfit, it is a good idea to use the material for the handbag itself.

It is also good to combine the handbag itself with other accessories, such as shoes, scarves, scarves, caps or hats, glasses, etc.
