

BOX for tea lights

I really like to burn tea candles. I always buy a large amount of them, but I didn't know where to put them.

So I tried to make a decorative, looped box to store the candles, which sits on my chest of drawers and in which I keep the candles nicely hidden and at the same time always at hand.

Dimensions: 16 x 16 cm

Height: approx. 6 cm

Material inventory

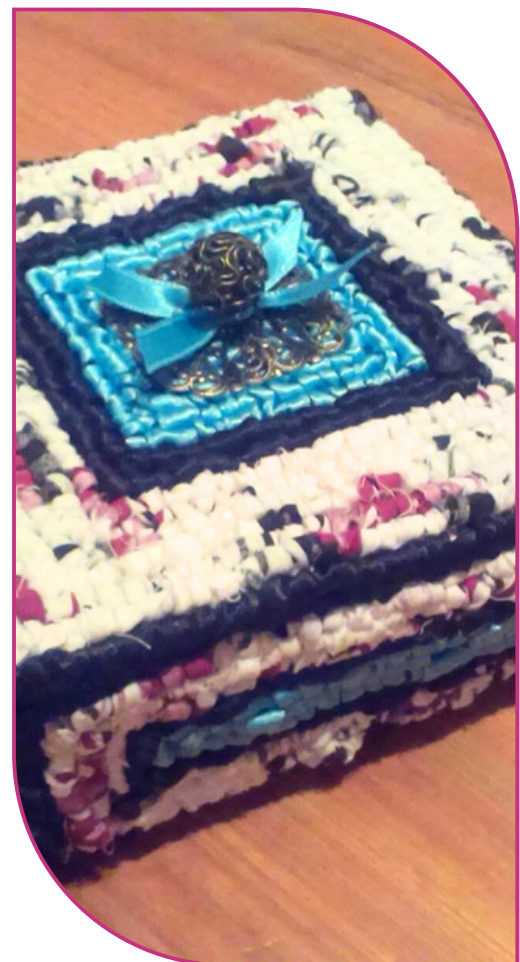

Looped areas: remnants of fine fabric (recycled old bedding), satin ribbon in blue and black

Edges: satin black ribbon

Lining: self adhesive reinforcement lining

Decorations: square filigree and filigree bead

Complete production instructions can be found for free download in the "vzory" section.

TIPS FOR YOU

I used two loops of satin ribbon for the closure, but you can use two key rings for example. If you would like to make a box with a front closure, I recommend making an eyelet from satin ribbon and attaching the same filigree bead as you use above, or a decorative button to the front of the lower part.
