

# HANDBAG

*to boots and outfit*

Many years ago, when I had small children, I was working, studying and creating handbags... there was not much time to visit my sister in Slovakia. That's when I came up with the idea that every year at Christmas we would go to one family's house for the Christmas holidays and Christmas Day. The family that hosted the other members of the family prepared a list of tasks and activities that they did not have time for during the year, and the other members of the family, so that they would not be bored during the visit and not only have to watch fairy tales and eat sweets, they could have fun with these activities.

Everyone came to us this year. The nurse brought with her beautiful boots with the words: "no handbag I have fits them". And so I received one quick order for the production of a handbag.
