RUG

I originally made this project as a large laptop bag. However, I very unfortunately lost the original notebook… not only a computer, but hundreds of drawings, patterns and various designs for looping projects. I was the most horrible.

The next laptop was half the size, so I was looking for another use of the project in progress. He won the rug project.

Dimensions: approx. 45 x 30 cm

Material list
Looped surfaces: recycled, hand-dyed cotton fabric in light turquoise, yellow and orange, plus white and black cotton fabric
Edges: Black cotton fabric stripes
Locking medium: solid cotton yarn in black

TIPS FOR YOU

If you are going to dye the fabrics yourself, make sure that the colors are very well washed several times. Pass on the same mistake I made when I washed the rug by hand. The yellow and orange have spilled a little into the white and turquoise canvas.
